DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 11 through 14, 20, and 28 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: the electric circuit has a memory for storing a subscriber number and provides for hardware and software coding of the subscriber number, however, the connector parts also set "a subscriber number" via software coding. It is not clear if this second subscriber number refers back to the first mention subscriber number or is a separate subscriber number for the connector parts.
4. The remaining claims are rejected for being dependant on claim 11.

Allowable Subject Matter

5. Claims 18, and 21 through 25 are allowed.
6. Claims 11 through 14, 20, and 28 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

7. Applicant's arguments with respect to claims 11 through 14, 20, and 28 have been considered but are moot in view of the new ground(s) of rejection.
